**QUANTUM  
BIOCYBERNETIC  
EVOLUTION**

# ARK OF IMAGO PROJECT PROSPECTUS

*“The Most Amazing Cosmic Project in All Human History”*

## I. Project IMAGO is a Building Project

IMAGO is the ultimate step in Quantum Biocybernetic Evolution, the necessary Leap to humanity's higher consciousness and full powers that is long overdue.

Scientist, Dr. Philip Savage, is ready to build the First IMAGO Transmutation PYRAMID, which can be constructed, secured, and activated within SIX months of receiving the required funding.

The IMAGO Pyramid will utilize an even more advanced application of Dr. Savage's SDI Subliminal Mind-Force technology that requires physical materials and cybernetic substances for Dr. Savage to process the people inside the Pyramid to their fullest evolutionary potential, IMAGO, which means the final and perfect psycho-morphologic culmination of the animal after successful completion of the transformational stages of the metamorphosis.

## II. IMAGO Transmutation Pyramids are very special BioCybernetic Athanors

The IMAGO structures are unique, specifically designed Pyramids with nine angles, 2/3 on the outside, 1/3 on the inside, and a Sphere in a rare alloy with a special bio-liquid inside. Dr. Savage has the blueprint.

Through thermal imagery, Dr. Savage will connect to and “process” the people that are within the Sphere.

On leaving the Sphere, those people will be Complete Humans, transformed from their current immature (larval) state to a new level of human evolution with the highest consciousness, abilities, powers and skills. The new people that come out of the IMAGO Sphere will be totally different, capable of doing more than any human has ever before been known to do.

The emergence of the FIRST fully evolved IMAGO Beings will shock the media and create the most dramatic global effect in human history that will immediately change the world, raise the collective consciousness, and catalyze major positive societal, environmental, geo-political, and economic change.

Most importantly, the Ark of IMAGO Rescue Capsule will enable the new Imago Beings to survive human extinction and be fully equipped to do whatever is necessary to ensure the survival of a future human race which is essential to durably saving the Earth.

## III. Cultural Context to Understand the IMAGO Project

“Superhuman” powers and abilities have been observed and recorded throughout human history, particularly in religious or spiritual texts and anthropological descriptions. Such accounts live in our collective memory and modern human experience, where many people feel and believe they are capable of much more than they are currently able to do, and dream of a higher purpose in the world than they are currently able to manifest.

When IMAGOS emerge from the Pyramid, they will be able to fulfill those dreams. They will have access to their full 100% brain capacity, ability to navigate the one collective Bio-Mind, and more. With their focus, attention and all their senses fully magnified, they will have opportunities for acting they didn't have before. The internal powers and physical abilities of Imago Beings will be exceedingly enhanced to produce extraordinary results in whatever they do and wherever they go.

Such advanced abilities and increased senses are indications of the “original human blueprint” that has been “interrupted” and set back instead of evolving to completion as humans were originally designed to do.

Dr. Savage's absolutely unique Mind-Control processing of people within the IMAGO Transmutation Athanor will complete the evolutionary metamorphosis of the original human blueprint.

This is the reason Dr. Savage is here at this time in history, to use the extraordinary powers, abilities and wisdom that he has demonstrated throughout his life to help the Earth and assist humanity before the final “shift” (modern human extinction) takes place.

- Thousands of extraordinary Bio-Restorations ("healing") of humans and animals suffering or dying from painful, debilitating, or lethal injuries and diseases.
- Proof of more than 2000 recorded cases of "Instant Burn Recovery" (pain and marks gone within hours for burn victims and Shingles patients) from 58 countries worldwide who called in to participate, from a distance, in his global, remote FireBurnDoctor "Burn Eradication Project."
- Immediate recovery from trauma, crisis or threat, including rape, genetic defects, childhood disorders, abduction, and addiction (including to drugs, alcohol, sex, etc.) for hundreds of subjects.
- Rapid enhancement of athletes, CEOs, racehorses, politicians, anyone in competition to win.
- Genetic Engineering using Mind-Force only - Complete morphogenic transformation, blending the DNA and morphic images of different persons to bring about predefined results.
- Genomics - Reversing the status of species threatened with extinction, using Mind-Force only.
- Security - Rapid removal (from a distance) of security threats and threatening persons for business, government and agency personnel, using only SDI Mind-Control technology.

## V. Funding the IMAGO Project

Dr. Savage's SOLE priority now is survival, for the Earth and a future human race of Imago Beings. He will accept ONE partner to sponsor the necessary funds to build the FIRST Ark of IMAGO Transmutation Pyramid and establish the world's ONLY Sapiential Bio-Institute (SBI).

The IMAGO Project will be funded in three stages, by ONE BILLIONAIRE SPONSOR who will then be considered by Dr. Savage as a full Business Partner, with all the extraordinary privileges that relationship entails.

Upon receipt of the required initial funding, Dr. Savage will build, secure and "activate" the first IMAGO Pyramid in a private facility, after which it will be moved to the permanent SBI location, as agreed upon with the Sponsor.

- Stage 1 funds – BUILD the first IMAGO PYRAMID and Sapiential Bio-Institute facilities (construction).

- Stage 2 funds – SECURE the IMAGO project and Sapiential Bio-Institute facilities (protection: legal, physical, informational, governmental, etc.)
- Stage 3 funds – ACTIVATE the IMAGO Athanor and launch the Sapiential Bio-Institute functions (management, laboratories, personnel, etc.)

Upon completion of the three project stages, observers, including global media, will be invited to witness the emergence of the FIRST IMAGO Beings when they leave the Pyramid after Dr. Savage's unique BioCybernetic processing.

People worldwide will then be astonished to see the COMPLETED human, IMAGO Beings they have never seen before, doing things that human beings have never done before (yet were originally designed to evolve to do).

Dr. Savage may continue to build IMAGO Pyramids – “those Transmutational Athanors” – as needed.

Within TWO years from the date of receiving the final IMAGO funding, Dr. Savage will gift his Project Partner with a substantial TWENTY-fold (2000%) reciprocal return on his or her initial IMAGO investment.

## VI. The Next Step

Project IMAGO, including the Sapiential Bio-Institute, requires only 6 months to build, secure and activate. It is urgent to begin immediately, as we are clearly out of time on this planet. Our future, if we are to have one, depends on building the IMAGO Pyramid now. Without Dr. Savage's IMAGO Rescue Capsule, no human will survive extinction.

ONE BILLIONAIRE will make the difference for all of us: Earth and humanity's survival or extinction.

### **Dr. Savage explains the IMAGO Project excerpts from his Exclusive Video Interview (2005)**

*"But my real project is called Imago -- I M A G O -- which, in terms of psychoanalysis, means the state of perfect completion. In terms of entomology (insects), it is the perfect insect after a larval life. Sometimes the Imago state lasts only one day, but what a day! We all are larvae compared to our own potential. And there is an evolutionary leap that's long overdue, actually that has been blocked by those forces of chaos, those forces of destruction, for millions of years. Remember, I'm a paleontologist and I know exactly what I'm talking about. Just thinking that your immediate ancestors, Cro-Magnon, had a brain of 2.2 liters (where today it's 1.4) and with much better convolution, you know, and a much better wiring, not unlike a killer whale or a dolphin. And it's only 40,000 years ago. Just try to imagine humanity of like a couple of million years ago, which has nothing to do with the ape, nothing, nothing, nothing...."*

*There is a leap that's long overdue. And that's my project: To turn everyone from its larval state into an IMAGO complete being. What it takes, at that point, is for me (because I have the machinery for change, the schematics), is just to build a few machines, very special pyramids, with nine angles, 2/3 on the outside, 1/3 on the inside and then a sphere in a very strange alloy with a special bio-liquid inside that doesn't really exist on this planet -- then, through thermal imagery, I would be connected to those people and submit them to my own processing with my strange powers. What I can guarantee is that people entering the sphere and people going out of the sphere, will be the same species -- they'll be real humans, complete. It's not to replace humans, it's to make them really human, which they are not yet. They have stopped that path toward a real humanity. We are not even using our brain at more than 10%. If only we could use it at 100%, wouldn't be so bad. But we can do much better than that and go back to true humanity... in which there is no separation between all beings, which means there is no separation between the mind, the soul, the body, one another, parents with children, children with family, family with the village, the village with the country, the country with the world, and the world with the universe and with God. All one, oneness, unity. That's the whole point. That's what we have all forgotten...."*

*We need athanors, those alchemical cauldrons of transmutation. With my technology added to my own powers, we can turn people, not only into a different being, to an evolved species and we can do that millions of times a day. We have the technological means to do so. We don't have, YET, the financial means to do so. We can't just sit down and meditate and wait until the great consciousness rises. We don't have that opportunity, that chance today. We need to go fast, be very effective, and remember, if you can dream it, you can do it."*

# BIOGRAPHY - Dr. Philip Savage

- Philip Savage is a scientist with a PhD and a 30-year track record that is unsurpassed. He has made significant contributions in Paleontology and Criminology and produced outstanding concrete results in the field of Subliminal Influentiality that no scientist has ever done before. Many of these remarkable cases are publicly documented and can be seen on [www.PSproof.com](http://www.PSproof.com).
- Dr. Savage is known worldwide as the originator of the science of Subliminal Distant Influentiality (SDI), the advanced technologies of distant subliminal mind-body control (non-physical, non-therapeutic, and non-pharmaceutical), that has produced unprecedented results throughout his life. He is the author of six books, dozens of professional articles, videos and reports, and the subject of hundreds of news, radio and press articles, as well as a 1000-page revolutionary thesis on *Phylogenetics and the Involution of the Human Species*. As Chairman of the scientific "skeptics" association in France, Dr. Savage organized the *Ethical Committee for Alternative Sciences*, recognized by the French Medical Board, that distinguished alternative science practitioners who could prove their work with the many who could not.
- Graduating the French Police Academy of Cannes-Ecluse in Paris, as the youngest police Inspecteur (Lieutenant) of his generation, Dr. Savage worked in criminal intelligence as a criminologist engaged in research and analysis of crime data, as well as doing private laboratory experiments for scientists of the French government. In the mid-1970s, Dr. Savage was assigned to lead an elite SWAT team credited with eliminating the threat of the worst Arab terrorism in Paris. He was also an instrumental figure in the violent political battles of that era, eventually surviving (where many did not) the government regime changes and a near fatal clash with the succeeding French president Mitterand.
- Philip Savage was born in 1953, a unique historical figure from the matriarchal lineage of an ancient Hyperborean tradition that survived thousands of years of persecution in Brittany (France). His female Breton clan has been the guardian of the biggest and oldest megalithic monument on Earth, Carnac, which is 3000 years older than Stonehenge. Dr. Savage was trained and initiated for his first 24 years in the science and wisdom of three generations of matriarchs as the last *Strobineller* (Shiftmaster), commissioned to utilize his lineage's highest "healing" (shamanic) powers and practices, both female and male, and obliged to assist humanity in the final "millennial" shift.
- As the famous "Breton healer," Dr. Savage was an overnight media star in France, where his appearance on Paris TV shows in the early 1990s broke all European television ratings due to his unprecedented abilities. Known as the "charismatic miracle worker," he drew an audience of more than 25% of the entire French population and received up to a quarter million dollars a day, which he recycled to promote Life, Nature and Eco-humanitarian projects. On one popular show, Dr. Savage announced his worldwide premiere in genetic engineering with the first case of cystic fibrosis diagnosed in the womb that was gone in the mother and child when the baby was born. The mother with the healthy child appeared on that and other shows to discuss the details of their life-saving experience.
- Since 1990, Dr. Savage is credited with thousands of Bio-Restorations ("healing") of humans and animals suffering or dying from painful, debilitating, or lethal injuries or diseases. These include saving from extinction several endangered species (genomics), reversing the degenerative effects of aging in a 50-year-old woman who immediately afterwards looked 30 years old (cellular anagenesis), and changing the genetic structure of many of his clients (genetic engineering). Given accurate data and using advanced computer programs, he is also capable of blending the DNA of large groups of people (millions) in a process called Morphogenic Composite-Ideogram Cybernetics (MCC) that produces a complete morphogenic transformation with extraordinary results, e.g. to reduce the crime rate or enhance other desirable outcomes to help people and governments anywhere in the world.
- Dr. Savage is widely known in Europe and America as a pioneer in quantum science. His "before and after" results are documented in hundreds of cases that defy conventional physical laws, such as immediate recovery from trauma, crisis, or threat, including rape, genetic defects, childhood disorders, abduction, and addiction (including to drugs, alcohol, and sex). In cases of accidents and injuries, the person experienced a "shift" to a reality where there was little or no injury, with no pain (such as the car crash case on PSproof.com). In cases of autoimmune, respiratory and other diagnosed diseases (asthma, emphysema, fibromyalgia, AIDS, cancer, diabetes, etc.), the person experienced an immediate restoration of their entire biological organism from totally debilitating or dying to complete ability to function normally. In cases of abuse, addiction, crisis or threat to life, the person experienced an immediate relief of "trauma" and transformation to "a new person in a new life" with tremendous energy and physical potential. In cases of already healthy people, athletes, CEO's, or racehorses, the person (or animal) experienced an extreme boost of vitality, capability, enhancement (a kind of "legal steroids") that enabled them to do more than they usually can do. Operating at "full potential" for that period of time, those clients won their races, in whatever competition they were engaged.

- Since 2009, Dr Savage is most often referred to as the 'Fire Burn Doctor' or the "Bio-Matrix Hacker" due to his unprecedented work on Burns and Shingles. There are more than 2000 scientifically documented cases of "Instant Burn Recovery" (pain and burn gone within minutes and hours) for burn victims from 58 countries worldwide. Those people participated in the global Burn Eradication Project organized by volunteers trained by Dr. Savage to take care of burn victims remotely within the first 30 minutes of injury, as well as people suffering from shingles, a herpes zoster virus, who call the Burn Team within 24 hours of diagnosis. Dr. Savage explains these remarkable results as the outcome of hacking into the "unified field" (the Bio-Matrix) where all life is interconnected, then writing a "new program" for a body without injury, and then downloading that program to the suffering victim. In terms of his internet analogy, it is like fixing a damaged or "crashed" computer; we may not know how it is done, but we know it works when we turn the computer back on. In common physical terms, Dr. Savage calls his processing a partial or complete "brain reset," according to the need of the client. (FireBurnDoctor.com)
- As many other holy persons throughout history have endured, Dr. Savage was brutally persecuted by the illegal attacks of government agents and their corrupt legal and media representatives. Working unceasingly, while surviving twenty years of untold suffering, Dr. Savage has then continued for another twenty years to repair, rescue and restore those who seek his help.
- Dr. Savage's immediate and urgent priority is survival of Earth and a future human race by activating the ONLY option left in the short time remaining: To BUILD the first IMAGO Transmutational Pyramid, humanity's ARK of IMAGO Rescue Capsule, providing the Quantum BioCybernetic Evolutionary Leap that will result in the long-overdue METAMORPHOSIS of the human race to the advanced, fully evolved IMAGO life form equipped with the higher consciousness and extraordinary powers, abilities, and senses necessary to survive the imminent human extinction catastrophes, sustain life on a renewable earth, and attain actual immortality (as originally designed).

## SYNOPSIS

As a scientist, Dr. Philip Savage describes his greatest and most ambitious project as "IMAGO", designed to bring humanity from our extremely limited capabilities to perfect completion, our full potential. He says our immediate ancestors forty-thousand years ago, Cro-Magnon, had a better convoluted and more active brain of 2.2 liters, not unlike a killer whale, or a dolphin. Today it is only 1.4 liters, a dramatic deterioration in such a short time.

Dr. Savage says we have devolved for millions of years because of our vulnerability to the forces of chaos, those forces of destruction. Thus, we are all unevolved larvae compared to our own potential. Consequently, there is an evolutionary leap that's long overdue, which has also been blocked by the destructive forces -- for millions of years.

Philip Savage has the capabilities to bring this Project IMAGO into action, the project that will reconcile Man and Earth, using the scientific instruments that he has the blueprint to develop and activate: Unique, specifically designed Pyramids and a sphere of a rare alloy with a special bio-liquid inside. Through thermal imagery he will connect to and process the people that are within the sphere. Dr. Savage guarantees that on leaving the sphere, the people will be complete humans, having been "fast-tracked" to where we, as humans, should be – the long-awaited "biocybernetic evolutionary leap."

Currently we are not able to use our brains at more than ten percent. Through processing people within the IMAGO Pyramid, Dr. Savage says we can take our brains to our logical maximum of one hundred percent use. And far better, we can go back to true humanity, where there is no separation between the mind, the soul, the body, every living being, everything in the universe, and with God.

Dr. Savage says we have forgotten our Unity, our Oneness. We have been lobotomized from our senses, from one another. This can be re-established; he has the key and can pass it to us. For the first time, he is ready to delegate because time is now so short for our own and our Earth's survival.

## HISTORICAL CONTEXT

The principles of the IMAGO Project are strongly rooted in science, mathematics and history. Evidence has shown that ancient Egyptian and Mayan pyramids, built to exact specifications, created powerful energy vortexes. In that realm of connection to a "higher power," initiates were able to access higher states of consciousness and awareness. The pyramids served as initiation or ascension chambers, complementing the teachings of the ancient Mystery Schools.

Humanity has devolved from the higher realms of knowledge and consciousness espoused by those Egyptian, Mayan, Vedic, Celtic and many other ancient civilizations. These cultures recognized the divinity and interconnectedness of all things and were highly advanced in the areas of cosmic science, mathematics and spiritual development.

The Earth, the world and all life on Earth are now suffering, largely because individuals and nations view themselves as separate from each other, from nature, and from the Divine. This has brought People and the Planet to the brink of disaster.

As leading scientists warn:

*"We confront threats to our existence that our fore-bearers never imagined; an earth that is being degraded by the sheer fact of our existence and short-sighted choices. It is a Hell in which some experts say, there may be no escape and perhaps no atonement. Only through willful blindness can one be not aware of the challenges we face, global climate change, polluted air and water, exploding populations, habitat and species loss, water scarcity, desertification, murderous ideologies, resource depletion, grinding poverty, endless wars of choice, ethnic and religious hatred, on and on.... the evidence for our global predicament is based on abundant science."*  
(Dossey, 2013)

To survive, our Earth must win the life-threatening battle with its destroyers, the modern devolved human race. To save its own life, Earth's ultimate Bio-Cathartic immune reaction must render the human species extinct.

Modern humanity has failed. Failed to evolve, transmute or in any other way transform itself enough to reach the higher consciousness, wisdom, and powers necessary to fulfill its original assignment, necessary for the Earth itself to survive for any durable length of time. The necessary human transmutation and reversal of its suicidal activity cannot happen quickly enough with the tools, teachings, and efforts currently in use.

As Earth's Human Extinction strategy accelerates now to converge with full force, there must also be a way to secure a future human species - with evolved abilities, senses and powers - that acknowledges its duty to concretely protect the planet as original humans, Earth's Bio-Cybernetic Regulators, were designed and committed to do.

A QUANTUM evolutionary leap is needed for a future human race to survive extinction.

Project IMAGO is the only scientifically credible and provable strategy to make this rapid ascension and acceleration of human evolution possible. Just as the chrysalis serves as the caterpillar's vehicle of transformation to a butterfly, so, too will Dr. Philip Savage's ARK of IMAGO PYRAMID serve as the vehicle of metamorphosis for humans.

Today, Dr. Savage holds the scientific blueprint for that much more advanced form of human evolutionary chamber, the IMAGO Pyramid, where after his unique, remote, BioCybernetic processing inside these specially designed pyramids, humans will emerge as complete, fully functioning, fully evolved IMAGO Beings according to their original blueprint, imago being defined as the final perfect psycho-morphologic culmination of an animal after completion of all stages of the metamorphosis.

Project IMAGO is the only solution that we have that can, literally overnight, ensure the long-term survival of the planet and the existence of the future human race of IMAGO Beings, a different, true New Human species capable and necessary to fulfill its original duty to protect and serve life on Earth.

Dr. Savage's IMAGO Project must be implemented now, and quickly, while there is still time to reverse the fatal conditions before Earth and humanity become extinct. We need ONLY ONE Billionaire Sponsor to build and 6 months to complete,

# NINE FUNDAMENTAL RULES

Excerpts from *The Warshal* by Philippe Sauvage (2001)

**RULE 1.** The absolute sacredness of Life. There is no other reflection of the only true “God” but within the “Divine Natural Order.” All Natural laws are divine in origin.

**RULE 2.** The way by which the Divine insufflates this Universe, which looks like a “balloon” with one unique, and yet multiple, “valve of insufflation.” This “valve” is the Inward Divine Source, the Transcendence Within, which, in logical accordance to the polycentric expansion of this universe, lies within each of us, within each of all living things. The more one goes deeper toward the Source, the more one is getting close to the Absolute Divine. Conversely, the more one goes toward the macroscopic outer domain, the farther one gets from the Divine Source.

**RULE 3.** The fundamental opposition between radically opposed and yet complementary forces, the “forces of unification” and the “forces of separation”. The first ones are more potent when one goes deeper into the nano-domain from within and the second ones get increasingly prevalent when one goes farther inside of the macro-domain from without.... Evil is when the “forces of separation” begin to insufflate some sort of “reverse consciousness”, that from simple bio-separation reaches the point of bio-opposition.

**RULE 4.** At the very same time evil appears, “counter-evil forces” are also simultaneously “engineered.” Since then, from a mere opposition between the “forces of unification” and the “forces of separation”, there is an additional conflict between the “forces of good and evil,” “Light and darkness.” Justice, fundamentally Divine and Transcendent in origin represents the Sacred Primordial Oneness.

**RULE 5.** Although there are extremely potent “external forces”, both of “Light” and “Darkness,” with a dramatically strong prevalence of the second ones at the human level, the only True Divine lies within. The “forces of Light” abide to the Inward Divine Source, when the “forces of darkness” oppose it, often quite effectively.

**RULE 6.** The sixth rule is that there is no “afterlife”, proper, outside of Life. “Hell” is where we are. There are fundamental systems of “cosmic accountability”, indeed of “reward” and “punishment”, but they are within Life itself. Furthermore, there is no fundamental separation between this Life and the true “Afterlife”. There is Divine Immanent Life and Divine Transcendent Life; the distinction is a matter of degree not of semantic opposition. What we do in this life, in all our immanent lives, directly reverberates on who we are and what we do in our possible Transcendental “Afterlife”.

**RULE 7.** There is no such thing as “freewill”. Save absolute obedience to the fundamental Sacredness of Life and to the Inward Divine Source, there is such a thing as a “good choice”. Any choice is inherently oppositional. Our only legitimate “Freewill” is unconditional acceptance of our role within the Divine Plan and the sacred consciousness of our final renouncing the idea of making “wrong choices” (the greatest pleonasm...) and “sinning” against the Divine Natural Order, which we are meant to protect and serve.

**RULE 8.** When true Religion should be to unite or reunite the “creatures” with the “Creator” (or “Creatrix”), all human “religions” are fundamentally established to separate us from the unique Source of Divine Life and Divine Justice. Sometimes unknowingly but, more usually, in full criminal acknowledgement of it, human “religions” force people to “look outward” in order to attain the “divine”. By doing so, they actually make man secede from the True Divine Within and redirect his legitimate “Spiritual Thirst” from the True “God” of Life and of Justice to the false “outward god” of “absolute evil”. There are no “priests” nor “temples”, but within.

**RULE 9.** The ninth “golden rule” is that the World is not inherently irredeemable, and that man is not intrinsically evil. The World is Divine; we are Divine. There are no former sins against Life, against Justice and against “God” that cannot be redeemed, as long as one’s level of Bio-Atonement and Bio-Commitment makes up for one’s previous bio-crimes. We may not be the only ones in this universe, but we are still the “chosen ones”. We have been offered an unthinkable “Gift” for which we will never be capable to repay the Magnificent Divine Source, the only one that is capable of expressing so much pure and absolute Love. When all other living things have been conferred “rights”, such as the right to exist, the right to experience bio-harmony, the right to love and to be loved, also the right to be protected, we have been offered the sublime gift of Divine Duties. The duty to protect and serve all other living things, the duty to partake of the Divine Plan as sacred “Co-Creators” and the duty to abide and uphold “God’s Laws” here on Earth. Our only “right” is that of our own awareness of those sublime privileges. There is no “happiness” outside the enthusiastic obedience to our Divine Bio-Assignment. The unfathomable joy of our own bio-consciousness and our own bio-duties within the unified field of Divine Love is the sole and ultimate Happiness which one would be criminally insane not to aspire to, with all his or her soul.

All those fundamental rules are not theoretical. There are ways, truly concrete and practical highways, to re-access the Divine Within, to channel its Sacred Forces, to free and cleanse oneself from all previous attachments to evil. There are ways to reach absolute Happiness, not in another mendacious “life” but in this one. There are ways to fight and win over evil and injustice. There are even ways, simple ways, to begin redeeming this World and redeeming ourselves before we prepare for a second Bio-Covenant, indeed more Sacred and more magnificent than the first bio-Covenant.... There are infinite parallel multi-dimensions and infinite parallel multi-universes. This is “God’s” Ultimate Secret Weapon.

## ROSIE:

***“I am so lucky to have found this. It has been worth a thousand times what I gave.”***

“I went to see Philip because I was sick, had always been so. All my life I had suffered from candida, which made me unresponsive and distant with deadened senses, and had tried everything that I came across to try and fix it. As my family have always told me, it's like I was on another planet, like a misfit. I was debilitated and fairly dysfunctional; had always been teased for being sluggish and slow on the uptake. People perceived me as stupid.

“Now, after seeing Philip, my health is profoundly better, more vital and robust than I ever thought it could be. My eyesight is fully restored from having to wear glasses all the time; now I can read small print all day, with no pain, and with no glasses! Also, I have vastly increased energy reserves, more stamina, my brain functions far better and the pain that I felt about my childhood has gone.

“My relationships with both of my children are stronger, more beautiful, and more rewarding. My sense of spirituality is greatly enhanced, enabling me to cope better with life. My brain is faster, more responsive and my common sense is sharper. Also, I have great rushes of exuberance and happiness and no longer have any cravings for sweet things. I feel feminine and no longer physically awkward.

“I have seen major miracles take place in people and animals. My friend's boyfriend has been transformed from a totally unconfident, suicidal depressive to a buoyant, positive, happy, self-possessed person. People free of arthritis, free of drug and alcohol addiction, anger, and problems with violence. People free of anxiety and trauma, particularly rape trauma. My daughter's puppy was run over by a car; she had tyre marks on her back end and had internal bleeding. Two and half days later she was on her feet and walking a little. Seven days later there were no signs that her accident had taken place, except that her pelvis was on a 45-degree angle. Three weeks later that was totally realigned and still is.

“I have found what I've always wanted, the real thing; something that is genuine and true; not part of any great illusion that humanity has embraced, something that really can help the earth, and any living being that gets to use it. I am so lucky to have found this. It has been worth a thousand times what I gave. It's what I've always looked for, and infinitely more than that alone.

“Philip has the capacity to help vast numbers of people, worldwide. With the media attention generated by the global fire burn tests, more people, and very wealthy people will grasp at this and use it for whatever means they require. Their participation will enable the setting-up of laboratories so that the IMAGO project can get underway, which is critical for the Earth and human consciousness as a whole.” (Rosie H.)

## THEODORE (Tad):

***“I didn’t need any therapy at all, for this neck!”***

**“In 2007 my neck was broken in a car crash, a C2 break just like Christopher Reeve, but I was back to work in a week. Philip took care of me immediately, from a distance.”**

### **2007:**

Voice mail sent to Dr. Savage from the accident: **“First saved message** sent Wednesday December 19, 2007 at 10:50pm, Urgent Message:

### **Man yelling:**

*“Hello Doctor, I’m a friend of Tad’s, he’s from Seattle, and Tad was in a very bad car accident and his car is on the median here and Tad asked me to call you and let you know what I am seeing for some reason. He has a bruise above his eye and says his right arm is hurting him very much and so is his right leg and his left leg and his left arm. His car is in the middle of the median and it’s very badly cut up and he was hit by a Jeep somehow and they are putting him on a stretcher right now and they’re bringing him to a hospital, and they had to cut his clothing off. I don’t know what kind of serious damage this has done to him, but he’s speaking and he’s really barely able to move. They are cutting his clothes off. He can’t hear me anymore. He’s in the ambulance.*

**Paramedics:** .... Talking to each other... *“(inaudible) taking care of the gentleman...”*

### **Tad, 2008:**

“I was T-boned by an SUV at 40 miles an hour and he crushed my car: the window slammed against my head at 40 miles an hour; shattered the window - broke my neck. The firefighters had to cut me out of the car with the jaws of life. Policeman on the scene said that he was surprised I was not mashed potatoes!

“When I got to the ER, they ran me through all kinds of CTs, MRIs and X-rays. In the follow up visit I asked the neurosurgeon, *“Why did you run me through all these scans?”* and he says, *“No one comes out of an accident like that without multiple facial fractures, multiple skull fractures, torn tendons, severe brain bleeds if not brain damage and internal chest cavity injuries”* and I had none of that. I did have a C2 break in the neck. Now this is something else interesting. The neurosurgeon tells me I had the same C2 fracture as Christopher Reeve and the only difference between Reeve and me was that Reeve’s tendons gave out, mine held. Now Reeve was Superman, an expert horseman, and body builder, and me [pointing to his neck], I work on a computer all day. Reeve was in a coma for three weeks and quadriplegic for the rest of his life - short life.

“I didn’t even have a concussion; with the window shattering against my head at 40 miles an hour - no concussion! I was completely conscious the whole time, was able to assess my injuries, fully possessed with the ability to give instructions for a phone call to be made to call Philip Savage to help. No pain -- that’s in the documents, no pain, *“Patient refused pain medication”*.

“It’s beautiful not to be quadriplegic, not to have been in a coma, to have been fully conscious and no pain, it’s beautiful. But beyond that, the prognosis, after getting to the ER was 9 months to a year for full knitting of the bone, being in a neck collar for at least 6 months, and somewhere in around 6 months range whether there would be therapy or not, I didn’t need any therapy at all, for this neck.”

### **Tad, 2010**

“On January 11th, 2010, two years after my almost-fatal car crash, I was riding my bicycle home from work with a heavy pack on my back, when I suddenly fell head-first off of the bike onto the pavement, flat on my face, breaking my nose and hand. The face and nose being DIRECTLY in front of the neck my chances of crippling life injuries were certain.... All the doctors I had seen 3 years earlier had told me, repeatedly, to be very careful how I step off the curb because one wrong move and I could be dead or paralyzed for the rest of my life. Well, that didn’t happen, I walked away from this bike crash with no pain, not even the slightest twinge in my neck and went to work the next morning.

“Two weeks later, I took X-rays from this accident to my former neurosurgeon Dr. Khoo to find out what may have happened to my neck. Dr. Khoo was shocked and amazed and said that nothing, absolutely nothing had happened to my old broken neck. He said that it had healed up perfectly and was still perfect even though I had just smashed my face and broken my nose. He said the joint spacing was right, there was no tightness of tendons, my range of motion was great and if he weren’t my neurosurgeon two years before, he would not even know from the current X-ray that my neck had even been broken. What a fantastic gift from Philip who I then told Dr. Khoo all about.” (Theodore D.)

## CHRISTIAN:

***“It is an ecstatic experience to be blessed by Philip’s cares, to receive so much in just minutes....”***

### **2005:**

Let’s put it this way: the afternoon I walked out of Philip’s office, I wept with relief, I sat and meditated and then I went for a walk in unfamiliar mountains and I was doing – and navigating and doing physical movement better than I have ever done in unfamiliar territory, dangerous mountainous territory. I went out for 24 hours, totally green to the whole situation.

There was no pain, no withdrawals and just a blessed relief from a huge painful unhealthy burden and habit that I had, that I no longer have.

### **2014 video testimony (excerpts):**

I was a drug addict for over twenty years. Now I am not. At 36, I had been seriously damaged by LSD, DMT, ecstasy, cocaine, heroin, amphetamines, crack, mushrooms, marijuana, hashish, and alcohol.

Philip removed the addictions and the misery of an entire childhood engulfed in alcohol, drugs, my father’s pornography, and the violence that was the consequence of these afflictions. Now, after nine years, no drugs, no alcohol and no violence.

There was absolutely no pain, no symptoms of withdrawal. My vision, my hearing, my memory and my balance, damaged from head injuries and substance abuse, were restored during the course of two visits to Philip Savage.

It is an ecstatic experience to be blessed by Philip’s cares, to receive so much in just minutes with him, having spent years consciously and unconsciously destroying my own abilities and potential....

Restoration is an understatement; enhancement is the boon of Philip’s cares, radical enhancement. But not just for me – everyone I know who has been to see Philip Savage has received major miracles.

A friend of mine suffered a life of sexual abuse and rape since she was a baby. After just one visit to Philip Savage, she could stand tall, proud, a liberated woman, declaring *“none of it ever happened....”*

These personal accounts bring light to our direct relation to the environment and the world at large where now we need the biggest miracle of all for our Earth herself. Those degradations, diseases and disasters that have been perpetrated upon this Earth; they were giving me nightmares throughout my entire childhood. Never has a solution been offered to eradicate these gravest threats facing us all....

No one is exempt from the three strands of destruction converging on us right now – viral, climatic and geo-political chaos are taking a major hold over the world. Scientists, environmentalists, the common man have been crying out for a solution, a global solution for decades. The world’s richest men at the top are very lonely. They do not have a solution and they know it. Philip Savage is calling out to us, reaching out, for all his life and for this final time -- informing the world’s elite of his unique ability to help.

Without Philip’s cares, I would already be dead. Thank you, Philip, for my life.  
I now see how important your presence is for everything. Thank you. (Christian F.)
